INDEPENDENT PROJECTS

Valuation: Monde Nissin Corp. (MONDE) — *View Projects*
- **Comparable Company Analysis ("Trading Comps"):** Benchmarked Monde Nissin against Philippine food and beverage peers (Universal Robina, Century Pacific Food, San Miguel Food & Beverage) on LTM, 2026E, and 2027E EV/EBITDA and P/E. Applied 7.0x–8.0x LTM EV/EBITDA to ₱16.1B EBITDA, implying an EV of ₱113.0B–₱129.2B (₱6.80–₱7.70 per share vs. ₱7.12 market price).
- **Precedent Transaction Analysis ("Transaction Comps"):** Screened control deals in the Philippine and ASEAN food and beverage sector (URC–Munchy Food Industries, CNPF–Pacific Meat, CNPF carve-out of Ligo assets). Applied 8.5x–9.5x EV/EBITDA to derive an M&A EV range of ₱137.3B–₱153.4B, illustrating the implied control premium over trading value.
- **Discounted Cash Flow Analysis ("DCF"):** Built a 5-year unlevered FCF model (2027–2031) using consensus in initial years, then tapering revenue growth from 4.6% to a 3.0% terminal rate, holding EBITDA margin at 19.0%, and converging CapEx to D&A. Derived an 11.47% WACC via CAPM (re-levered peer beta of 0.78; 7.23% risk-free rate; 7.00% ERP; 5.47% after-tax cost of debt) and a baseline EV of ₱121.8B (₱7.28 per share) using a 6.6x exit multiple (1.59% implied perpetuity growth). Sensitized across WACC (10.5%–12.5%) and exit multiples (5.6x–7.6x) for a ₱113.4B–₱130.2B range.

Merger Consequences Analysis: Megaworld Corp. (MEG) / Filinvest Land, Inc. (FLI) — *View Projects*
- **Accretion/Dilution Analysis:** Modeled pro forma EPS for FY2026E–FY2028E on consensus estimates, including ₱650M of run-rate SG&A synergies (phased 25% / 75% / 100%), new debt service, fee amortization, and forgone interest on cash. Found +1.82% accretion in FY2026E, +1.64% in FY2027E, and −0.76% dilution in FY2028E; sensitized FY2026E across premiums (15%–35%) and stock mix (35%–100%), a range of +8.88% to −6.01%.
- **Transaction Structuring / Sources & Uses of Funds:** Priced FLI at ₱0.875 per share (25% premium to the ₱0.70 unaffected price), a ₱19.59B equity value. Built a ₱19.93B sources and uses funded by 65% stock (5.58B new MEG shares), 25% new debt (₱4.90B term loan at 6.75%), and 10% cash (₱1.96B), covering ₱342.8M of fees. Capped target holders at 14.7% of combined equity to preserve MEG control while retaining over ₱20.7B of liquidity.
- **Purchase Price Allocation (PPA) / Balance Sheet Consolidation:** Executed PPA under PFRS 3 / IFRS 3: wrote off ₱4.57B of FLI goodwill, marked up inventories (+₱5.0B) and investment properties (+₱10.0B), and recognized a ₱3.75B DTL at 25%. Quantified a ₱79.72B bargain purchase gain and consolidated a balanced pro forma balance sheet as of June 30, 2026 (₱729.64B assets; ₱312.31B liabilities).

WORK EXPERIENCE

The Insular Life Assurance Company, Ltd. — Makati, Philippines
